

ENVIRONMENTAL POLICY

We, Agromet Asia (Pvt) Ltd is committed to protecting, preserving, and enhancing the environment through the adoption of sound environmental practices.

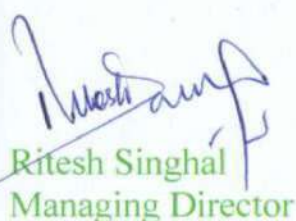

We strive to create a cleaner, healthier environment for the world and our country by:

- Reducing and preventing environmental impacts of our processes, products, and services.
- Complying with all relevant environmental laws, regulations, and standards, including local, national, and international requirements.
- Managing waste through effective recycling, reduction, and disposal strategies, ensuring that waste is handled responsibly at all stages of our operations.
- Controlling pollution by implementing measures to prevent and minimize air, water, and soil pollution through the adoption of cleaner production methods.
- Saving energy by implementing energy-efficient practices, reducing energy consumption in our operations, and exploring renewable energy solutions where feasible.

We continually improve our processes and strive to meet environmental objectives by:

- Training staff to ensure they are equipped with the necessary knowledge and skills to uphold environmental standards and adopt sustainable practices.
- Monitoring our environmental performance regularly to track progress, identify areas for improvement, and ensure that environmental goals are being met.
- Developing cost-effective, environmentally sound practices, integrating scientifically based solutions and industry best practices in every area of our business.

By committing to these principles, We Agromet Asia (Pvt) Ltd ensures continuous improvement in our environmental impact while maintaining compliance with all applicable environmental laws and regulations.
